# THE ART OF FUSIONING

The strategic perspective of Havish Impex is enriched with a new technology, with a horizon of beauty, creativity and functionality, which puts the values of ceramics at the center.

Havish Impex collections embody the combination of beauty, design and nature, in a perfect equilibrium achieved through what has always been a deliberate and thought-out approach. Our constant commitment, supported by continuous technological research, has enabled us to improve and to develop a "sustainable" porcelain stoneware, made with natural materials and with the partial use of recycled materials.

# A WIDE INSPIRED SELECTION

An accurate selection of fine marbles that epitomizes to meet the aesthetic and practical needs of every interior design project: the marbles of classical tradition have always been the protagonists of architecture in warm and cool tones, Italian marbles recognized all over the world for their purity, original colors reinterpreted and proposed in a new perspective.

**Glossy** effect Stoneware designed to be used on any surface: floors, walls, and architectural volumes. The 60x120cm formats with a 09 mm thickness are perfect for seamlessly cladding walls, reducing the interruptions and horizontal joints, ensuring an aesthetic continuity between the floor and the wall.

A wide range of decorations enriches and enhances **Glossy**-Effect floor and wall tiles. Refined veins decorations and precious effects add value to every application for floors and walls, creating a contrast that brings out the beauty of the material and adds a unique dynamism to the space.
